Academic Standing

The record of any student whose cumulative or semester grade point average falls below 2.00 will be reviewed by the Academic Standing Committee for appropriate action. Students in science programs whose technical grade point average falls below 2.00 will also come before the committee. Typically, the student will either be placed on academic probation or dismissed from the College. Additionally, the committee reviews the records of students who have failed to make satisfactory academic progress by successfully completing a minimum of 12 credits per semester.
