

CSC 4510: Machine Learn&Theory&Evolution

The mathematical theory behind the design of software by detecting and extrapolating pattern; neural systems that adapt to new circumstances; decision tree induction; genetic algorithms and genetic programming; research foundations.

Credits: 3.0

Prerequisites:

CSC 1700 and (CSC 2300 or MAT 4310 or STAT 4310) and MAT 2400

Program: [Computing Sciences](#)
